FISM ASIA Office
Asia region of FISM,
Responsible by Asia Executive Board of
FISM

Issued 2019/7/1

Direct participation to the WCM from Asia is not permitted

Contestants who can participate in the FISM WCM (World Championships of Magic) must, in principle, participate in regional competitions (in the case of Asia, ACM: Asian Championships of Magic) after receiving recommendations from FISM member organizations.

In the case of non-FISM members, there have been methods in the past that can compete directly with WCM in various unfair or special ways (feeling unfair to other contestants). We considered new measures in light of the reaction from many of Asian magicians and the highly transparent selection method.

The contents of this document have been discussed with FISM International. And still considering the contingencies that can not comply with the usual rules, a new measure called "AEB (Asian Executive Board) Slots" was established. Whatever the conditions, in objectively consider fairness, please understand that the contender from Asia must pass the ACM.

Please also note that we, FISM AEB, are of a view that no magic society in Asia should be encouraged to by-pass ACM, and contact FISM directly with an intention to obtain a contest qualification of WCM. To allow any Asian societies (FISM Member or Non-FISM Member) to violate this basic principle would infringe the administrative power of ACM. This would lead to an undesirable constitutional disaster within FISM and future in Magic.

Please refer to the following documents.

AEB Slots / steps to WCM / Criteria for selecting contestants

Please feel free to contact us if you have any questions.
